

# Incredible Technologies Showpiece™ Cabinet

## Install Secondary Monitor

Most Incredible Technologies games support a secondary monitor. Games other than Golden Tee from IT support a second monitor to display the main game screen, so more players can see the action. For more information, see **System Setup Menus>General Adjustments** on page 30 of the Operation Manual.

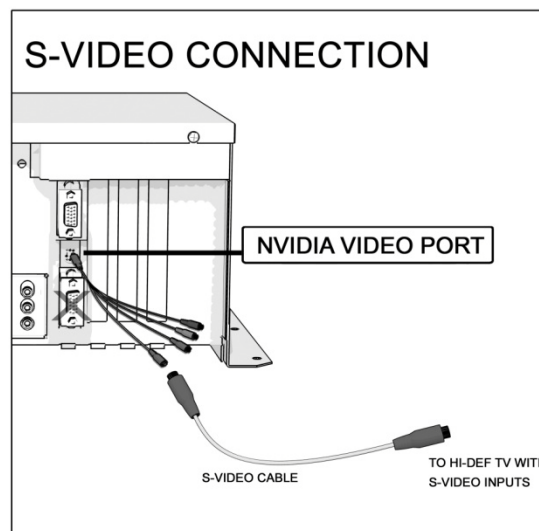

Incredible Technologies recommends using a 16:9 computer monitor. In all cases, the second monitor requires a VGA connection from the Nighthawk system box to the digital display of your choice. The secondary monitor can be connected using S-Video or the second VGA port. See the Sw202 DIP switch settings below to adjust the display.

## HDTV MONITOR APPLICATION

## Connect to S-Video

**ONLY FOR SECONDARY MONITORS:** Connect the supplied NVIDIA TV adapter cable to the matching round output on the Nighthawk system. Connect an S-video cable (not supplied) to the S-Video input on the adapter cable, then connect the other end of the S-video cable to the correct inputs on the secondary monitor.

## VIDEO AND AUDIO CABLES

If you need additional cables or different cable lengths not included with the Showpiece cabinet, they are available from a variety of retail and Internet sources. [Monoprice.com](http://Monoprice.com) is an excellent resource and a good place to start.
